

# Made in china forklift with machine room capacity 1000kg up to 5000kg

## Specifications :

Price	Contact us
Place of Origin	China
Min.Order Quantity	1
Supply Ability	10000

## Detail Introduction :

LSE Eelevator Forklift uses microcomputer control technology and adopts heavy-duty profiles to design and manufacture elevator cars, which can carry out cargo transportation in various harsh environments. Shunda freight elevator implements all current national standards, such as "Safety Code for Elevator Manufacturing and Installation" GB7588. The advantages of safety and reliability, high structural strength, durability, smooth operation, long opening distance and high performance make Shunda freight elevators an ideal choice for factories, warehouses, department stores, property centers and other units to transport goods. .

### Advanced control, more energy saving installation

The LSE Eelevator Forklift Control Cabinet uses the perfect combination of advanced elevator control and drive to make the elevator operation safer and more efficient, more energy saving and more environmentally friendly. In the design, the interests of the customers are fully considered and it has a very high cost performance.

### Professional cabin

The double-strength cabin bottom can reliably support all types of cargo. The high precision weighing switch strictly controls the load to avoid overload accidents; The floor is made of non-slip pattern steel plate, which can generate enough friction to prevent people from slipping or sliding of goods.

### Various ways to open the door.

To meet the different entry and exit requirements of users, LSE Eelevator forklift features side-opening double-folding doors, center-opening double-folding doors, single-pass doors and closed doors. There are four door opening methods for the pass door, which can be flexibly combined with the structure of factories, warehouses, department stores, property centers and other buildings.

### Frequently asked questions

#### 1. Price

Re: Send us an inquiry by mail, we will reply to you within 24 hours. It is more convenient and appreciated for us if you provide your company details and detailed elevator inquiry.

#### 2. Payment term
