	1.5	1400*2100	900*2100	2550*2450	2250	4900
	1.75	1400*2100	900*2100	2550*2450	2250	4950

Control of maneuvering without machine room

1. Intelligent control system

The control system adopts special VVVF system and modular structure of complete computer design to ensure efficient, convenient and safe operation of the elevator.

2. Advanced technology

All control boards, frequency converters and displays are independently developed and have 106 patents. 32-bit dual microcomputer integrated control is adopted. Debugging is simple and can be debugged remotely. Automatically learn the encoder angle after power failure or fault recovery. Updating of OMUD handheld equipment. Application debugging.

3. Reliable quality

After more than 100 strict tests before leaving factory, the product failure rate is less than 0.3%. 8 elevators can be controlled. All passed strict environmental, electronic, mechanical and EMC test.

FAQ

1. Price

Re: send us an inquiry by mail, we will reply you within 24 hours. It is more convenient and appreciated for us if you provide your company details and detailed inquiry for elevators.

2. Payment term

Re: T/T

3. Installation and maintenance

Re: We will send the installation and maintenance manual together with the elevator.

Our question is to hire a professional local company for installation and future maintenance, Once you need our technical assistant, please feel free to contact us by mail or phone.

A technician will be sent to the job site if necessary.

4. Shipping terms and price

Re: Both FOB / CIF / CFR price terms are ok, we have a reliable forwarder to help arrange the shipment for you.

Please send your message to this supplier.
